I hope this review was helpful. I have to confess as a first time parent i had never heard of Sandra Boynton before.

RAOW and one cat Mrrroww!4 A to Z This book is as you would expect the alphabet and is illustrated with each corresponding letter. Some examples detailed are different to anything I would think of so it introduces your little one to new animals. They frequently keep my son entertained when eating out as well as the adults: 978-0689823220 This as well as Boynton's Greatest Hits: Volume 2 are a great set of books. Since 1974 Boynton has written and illustrated over sixty

children's books and seven general audience books including five New York Times Bestsellers, More than 70 million of her books have been sold mostly to friends and family she says. She has also written (with Michael Ford) and produced six albums of renegade children's music. Three of her six albums have been certified Gold [over 500000 copies sold] and Philadelphia Chickens nominated for a Grammy has been certified Platinum [over 1 million copies sold.] Boynton has also directed twelve music videos of her songs including the award winning One Shoe Blues starring B, King Alligator Stroll starring Josh Turner and Tyrannosaurus Funk (animation) sung by Samuel L: She lives in rural New England and her studio is in a barn with perhaps the only hippopotamus weathervane in America. I had to read it hundreds of times to the plea of Again please Mummy!, Just had a text from my son to say he could see why he had loved it so much as a baby and how much he had enjoyed reading it to his daughter. Babies love the repetition of sounds and the jolly yet simple illustrations can be recognised from an early age. All children should have Boyntons in their libraries from birth: I seek her out to give as gifts; spread the word and all those happy characters. I used to have the entire text of Dogs imprinted in my brain: After a little online researching looking for fun educational books I discovered Sandra Boynton, Her reviews were excellent so I did not hesitate to order volume one. The 4 board books arrive in a thick cardboard box for easy storage: The pages are very thick and durable they withstand rough handling as well as lots of biting and drooling from my son. The target age range is 2 to 5 years old but my son will happily sit and listen to them. One thing I love about this range is the illustration is very engaging. My son will point out animals and make their sounds etc and they capture and retain his attention through the entire story. I didn't know what to expect from the books having not heard of the author before so thought it would be helpful to detail the books, The 4 books include;1 Blue Hat Green Hat This story teaches simple colours and items of clothing. The wrong way to wear each item is displayed by a silly Turkey, each dog has a different bark meaning you can be very silly and giggle all the way through, IT reads;1 dog WOOF2 dogs WOOF YAP YAP3 dogs WOOF YAP YAP Nnnnnn. nnn Ruff Ruff Ruff Ruff Bow wow wow wow wow6 quite dogs7 dogs WOOF YAP YAP Nnnnnn: Not overly complicated either so my 14 month old doesn't get bored, The collection consists of:blue hat green hatA simple book about an elephant bear moose and turkey trying on different clothes of varying colours, I imagine this book will be brilliant to teach my daughter colours in the future, Its a simple counting book counting dogs from one to ten plus a little surprise in the shape of a terrified cat at the end: Each dog barks in differing ways and my partner does fantastic impressions which we all love i: nnn ruff! ruff! ruff! ruff! bow wow wow wow!
