. He has no hope of a fair trial. But the murders are just beginning. I can't recommend this story

enough. I'm sorry I did. "The Devil's Advocate" is dreadful. The plot is bizarre and unbelievable. The characters are grotesques and barely two dimensional. The whole structure of the book creaks and badly. I was quite disappointed with this book. This book however is quite problematic. A great shame. Eddie Flynn is a great character. He deserves better stories than this. Read it in two days. These books just keep getting better and better. face in try to get a fair trial for their client. face in try to get a fair trial for their client. Absolutely superb work
