4. There is always so much with Osho. When you are sad the world seems dull. People are complicated difficult to logically work around. Remember that as a mantra: The other is never responsible. But to become incapable of unhappiness. that is the goal of all spiritual effort. The first ripples will arise in the intellect. These are the three layers: thinking feeling being. When you go beyond it is not that you become numb. You go beyond because you are so alert and sensitive. There is no need to prepare it. You are not a child preparing for an examination. Either way you are profited benefited. And whatsoever the conclusion it will be good for you. There is no other way than experience. It is going to be a great assertion a great statement. I have never thought about it.' Yes that can be true. You are encroaching upon destiny. S. Attorney Charles H. [ After his deportation 21 countries denied him entry. {site link}
