

Ponzinomics: The Untold Story of Multi-Level Marketing By Robert L. Fitzpatrick FitzPatrick's prose is sometimes repetitive but the information is densely packed into 300 pages that leave you a bit breathless in awe that American politicians and agencies and culture are complicit in the power of companies and individuals who make their money on the backs of their "independent salespeople. **Ponzinomics bookworm** " This is definitely a book that will make you feel feisty about the number of social media "friends" hosting virtual selling parties and your sense of obligation to support their iffy "small businesses. **Ponzinomics epub file** We get a lot of history of Rehnborg and a repeated statement that Nutrilite sales recruiters eventually spun off the concept to Amway but the actual history of how that happened is never provided. **Ponzinomics kindle** Ponzinomics: The Untold Story of Multi-Level Marketing Repetitive and not well-crafted in terms of writing style.

Ponzinomics booker

Are you surprised? You probably could have already guessed that they're all running in the same sick circles and throwing money at each other. **Ponzinomics epub file** I would not recommend this book as an introductory text; if you're looking for an introduction to the hazards of multilevel marketing schemes.

Ponzinomics pdf editor

{site_link} post a commentPonzinomics by Robert L. **Ponzinomics booking** FitzPatrick author of False Profits is the first comprehensive account of how multi-level marketing was created in America escaped criminal and civil prosecution and spread all over the world. **Ponzinomics ebookers** It is the first book to deeply investigate the multi-level marketing phenomenon and to fully explain how the legitimate business of direct selling was turned into deceptive pyramid recruiting. **Ponzinomics pdf editor** Ponzinomics dissects the elements that distinguish multi-level marketing from legitimate sales and reveals how a business could become a delusional belief and a pyramid scheme a pseudo-business model. **Ponzinomics booklet** Ponzinomics reveals how multi-level marketing helped to lay a foundation on Main Street for the presidency of Donald Trump with a program of pervasive deception financial self-destruction authoritarian leader-worship and economic make-believe. **Ponzinomics pdf** Ponzinomics: The Untold Story of Multi-Level MarketingA very interesting study of the history and growth of Multi-Level Marketing companies and how they work Ponzinomics is still a valuable source for grounding in understanding the phenomenon of MLM. **Ponzinomics book** Again I'm willing to give Fitzpatrick a pass on this as the industry is so understudied and legislation and corruption have made it easy for MLM companies to hide smoking-gun evidence from the public. **Ponzinomics audiobook** But I'll give my guy a break for being The Man on anti-MLM truth-telling and activism and probably not having the money or time for better editingI'm going to note the most compelling sections here because if you're interested in MLMs too you're gonna want to read this book. **Ponzinomics epub file** I would recommend that Lularoe show as well but I saw the first episode and wasn't feeling inspired to push onward due to the reality TV heavily cut up and narrativized docuseries style (like if I see any more stock footage of suburban white children playing in the front lawn in a documentary I'm going to scream. **Ponzinomics book** 68 helpful graph showing the double a penny for 30 days trick and relates to the absurdity of the MLM down-line you just need five recruits! surely you know five people who would like to make some extra money?pg. **Kindle ponzinomics** Earlier content illuminates the direct complicity of Reagan and Amway and other Republicans but come on start with the segment on Last Week Tonight or the first season of The Dream podcast. **Ponzinomics bookkeeping** Even though it's very clear that FitzPatrick is an expert on the financial implications of multilevel marketing schemes running rampant it's as equally clear that he doesn't necessarily understand the communication skills required to alert the public to the scammy nature of multilevel marketing schemes (he takes a couple seemingly uncalled for shots

at journalists as a class which comes off very badly because I heard about his work FROM JOURNALISM). **Ponzinomics book** Ponzinomics: The Untold Story of Multi-Level Marketing This book is a bit of an analytical history of that very slithery scam network marketing or multi-level marketing where the only way you make money is because of the statistical certainty that 99. **Ponzinomics ebookers** The sad part of the story is that the law has had such a difficult time of dealing with this phenomenon and mostly has tied itself in knots as most recently when Herbalife was found to be not not-a-pyramid scheme because it was apparently judged to be too expensive to prosecute them as a pyramid scheme. **Ponzinomics bookkeeping** This is a great resource for two specific aspects of multi-level marketing--the history (honestly further back than we probably need) and the systems in place in the United States that are either structured or manipulated through political leaders and appointees to be favorable to MLMs. **Ponzinomics ebooker** Where I would have liked to see more of is the personal aspect--not success stories or necessarily stories of people losing everything but a story of why besides the American Dream. **Ponzinomics book** It's also disgusting the corruption is in government to protect MLMs and let them keep scamming people because MLM bosses are very generous campaign donors to some very influential people in congress and state houses. **Ponzinomics epub air** The FTC is basically asleep at the wheel and basically nobody in the media or in power wants to deal with talking about these scams as scams for fear of getting dragged through court. **Ponzinomics epub file** I'd noticed how weird MLM people acted but it finally clicked when the author compared them to cults like "oh of course yeah that's why MLM recruiters always seem so fake and weird" Ponzinomics: The Untold Story of Multi-Level Marketing.

. **Ponzinomics epub air** " Ponzinomics: The Untold Story of Multi-Level Marketing This was an excellent history of MLM and really emphasizes how inherently insidious it is: **Ponzinomics epub file** I did not know the history of the first MLM-disguised-pyramid-schemes or how deeply ingrained resistance to cracking down on it is in our political system, **Ponzinomics epub file** What I disliked about this book was it was poorly organized, **Ponzinomics epub file** The whole beginning of Nutrilite and eventual emergence of Amway is never fully explained: **Ponzinomics book** Overall Ponzinomics is super informative but probably could have benefited from a few more rounds of editing: **Ponzinomics pdf** But don't think that the Dems are here to save you! They're fully complicit as well: **Ponzinomics kindle** 283-292 cultism and MLM Ponzinomics: The Untold Story of Multi-Level Marketing Very informative history of MLM companies in America. **Ponzinomics audiobook** Pretty awful stuff all around with complicity of the US government in permitting this deceptive crime against ordinary Americans. **Ponzinomics epub file** Please read before getting yourself involved in these gimmicks which will leave you poorer than when you started but only after a period of illusory gains, **Ponzinomics epub file** Ponzinomics: The Untold Story of Multi-Level Marketing

3, **Ponzinomics book** Ponzinomics is a discomfoting look at the threads of American culture business and politics that were woven into what has become the largest scam on Main Street, **Ponzinomics ebooker** You could argue that the repetition of events or figures hammers home
