-A South Asian MC-Stunning cover-Muslim repMy desi heart is so happy rn! English Mini review:Trigger warning(s): None till the point I read. **Book Tahira in bloom's** As a fan of both of these forms of design I loved reading about Tahira's summer in the flower capital of Ontario and she is a strong and confident main character as well. **EPub Tahira in bloomfield** When the designer Tahira was planning on interning with over the summer breaks her leg Tahira's only alternative is to spend the summer in the flower capital of Ontario helping out with her aunt's clothing store. **Tahira in bloomy controls** However when Tahira learns about a flower arranging contest that might give her a shot at meeting one of her favourite designers in New York she decides to give floral design a chance even if it means teaming up with the irritating flower boy to make her dreams a reality. **Tahira in bloomy line** She's passionate about fashion and willing to do whatever it takes to follow her dreams of being a designer and I enjoyed the way she learns to explore alternative pathways for her future. **Tahira in bloomed** What I especially appreciated about Tahira is the way she is portrayed as an influencer not as someone shallow as is normally the case in books about influencers but as someone hoping to share her talent with the world. **EPub Tahira in bloomingdale's** Through Tahira's experiences there is also commentary on racism in the fashion industry and important discussions about the way marginalized designers are forced to work harder to gain visibility. **Contemporary Tahira in bloom** While this is a cute and upbeat story there are also discussions about more serious topics such as racism in the fashion industry which make this one a both heartwarming and thought-provoking read. **Tahira in Bloom pdffiller** She's always had the support from her parents and has worked hard on her social media game to be noticed but when her internship with an upcoming designer falls through Tahira finds herself having to downsize her plans for the summer. **Tahira in bloomz sign** Featuring a South Asian Muslim main character who deeply cares about her friends and her own aspirations and her social media game and a Black love interest Rownan who is into flowers and despises influencer culture "Tahira in Bloom" is the perfect sweet romance for fans of the rivals to lovers trope. **Tahira in bloomy controls** While this book is certainly romantic it's also got flowers character growth in each of its multilayered and loveable characters casual bi and pan rep discussions on racial prejudice in the fashion industry and society in general (specifically towards South Asian and Black communities) and so much more. **Tahira in bloomnet bms** Despite her best friend's company on this summer trip she can't have the best time of her life because a) that boutique is lame and b) that grumpy neighbour Rowan is annoying her with his judgements. **Tahira in bloomed** With a focus on Indian parents passing down their gene of ambition and young dreams an exploration of faith and religious practice an interracial relationship the pressures of social media racial prejudice and finding true friendships this YA debut proves to be as entertaining and nuanced as Heron's adult rom-com Accidentally Engaged. **Tahira in bloommax technology** 2021 already invested when the mc is a south asian muslim but the author says it has 'fashion flowers friends' so I'm even more interested and not just because this promo line has alliteration. **Tahira in bloomz model** Words can't express how much I loved it so
