

Fast Lane (SEAL Team Alpha #16) By Zoe Dawson Zoe Dawson This book had me crying within 5%!! I felt every emotion in the wild ride we were taken on in achieving HEA for Ford "Fast Lane" Nixon & Solace Mitchell This is book 16 of the authors SEAL Team Alpha series the first 8 or so books follows Ruckus's SEAL team the series then leads into Fast Lane's SEAL team with this in mind I would advise reading the series from beginning as storylines continue and in this one we get a completion of an ongoing storyline although saying that the author does give quite a bit of background in this story! I've waited patiently for Ford's HEA and I can't put into words how happy I am with this story it was emotional gritty intense sad happy suspenseful and of course full of hot sensual scenes. I've noticed that the author seems to be giving us readers a couple of stories per book this was Ford & Solace's story but we also had insights to possible future couples and stories. The one pulling at my heartstrings is Adrian "Rock" Lane...I NEED a HEA for him the author has me emotionally attached to him! Highly recommend reading if you love romantic suspense with a military theme. Zoe Dawson Unrelenting Action Suspense And Drama! A Military Romantic Suspense Story On Steroids!! Words cannot truly do justice for what I feel about this installment in the Seal Team Alpha series. Dawson seamlessly introduces new Seal characters just waiting in the wings for their stories and takes us on a gut wrenching journey on the continuing quest to annihilate Zasha and Angar Said. Zoe Dawson you are a stellar storyteller! Zoe Dawson Loved it! I've been patiently waiting for Fast Lane's happily ever after and it didn't disappoint! I especially loved seeing women kick some butt and protect their men! Zoe Dawson What a fantastic end to this second round of alpha team stories - Once again this author delivers a story that will not only keep you on the edge of your seats. Zoe Dawson After Somalia and the mission that had thrown him once again into the same orbit as his ex-wife Solace Mitchell Fast Lane is struggling with his emotions and his love for her. Together they're assigned the highly classified mission to take down Zasha Vasiliev coalescing into a terrible and deadly encounter with the vindictive woman and her terrorist allies leaving the team devastated. They must fight for their lives even as she starts to reconnect to him discover that he still loves her and deal with the fact that her heart had been blown to pieces when they separated. Could she trust that he has changed and if they don't die would a future between them be possible? Fast Lane (SEAL Team Alpha #16)

I have a new favorite of Zoe Dawson's books. Zoe Dawson I have no idea how Zoe does it I had thought that Saint's book (SEAL Team Alpha#15) was going to be hard to beat but each successive book in this series is better than the last and this one is absolutely outstanding. Now I will look forward to Rock's story at some point in the future (he needs to recover after all!) but meanwhile will be counting down the days until Professors story is out:

MMORPG monsters in World of Warcraft, She lives in North Carolina with her two grown children and one small furry gray cat. The suspense danger injuries death anger revenge love of the brotherhood and amazing females, Zasha was a demon a monster leave it up to some special ladies to take care of that problem: Three years of lost love because of stubbornness miscommunication fear of rejection and caring too much: Even though Zasha was a threat to everyone she brought Fast Lane and Solace together unknowingly: The there is Hemingway Dodger Pitbull severely injured and possibly not making it. There is a story there It is going to be hard to follow this book and make it pop. Only negative is the series is only on kindle I have the first 5 books in paperback but I REALLY WANT the rest in paperback for my collection. Dawson couldn't top herself in this phenomenal series I was wrong: This book is virtually non stop skillfully written action sequences with the exception of some high octane long overdo passionate sexual rekindling between Fast Lane and Solace: I don't want to reveal any spoilers but let me just say "Girl Power" will take on a new meaning with this book, Wow just wow! The epilogue is a little teaser for the next book...: If I could give this book more than five stars I most definitely would, Ford and Solace were married but divorced because of miscommunication their story begins when they are thrown together in Somalia old feelings resurface, But too soon before he's even nicked the surface of his torment he finds himself working with her in Jalalabad Afghanistan, Solace can't believe she's once again working with her estranged ex-husband: Ford had always been a force to be reckoned with when she was married to him but as the years have passed her memories of him have started to dominate her mind: After seeing him during that harrowing time in Somalia she hasn't been able to go back to forgetting him: Now they were thrown together in the scariest most hostile and dangerous place on the face of the earth. The intensity of this book is so strong I couldn't put the book down. I laughed and I cried and I held my breath during this book: Zoe Dawson gives us the story of Fast Lane and Solace but also brings in old favorites as well as new characters. As soon as you open the book you're hooked until the final words, I cannot wait to see what she has up her sleeve next: Zoe Dawson it wrapped up quickly they should have sent the wives in earlier to avoid all the death and damage, I do look forward to continuing to read the other operators beginning with Iceman: Zoe Dawson Fast Lane by Zoe Dawson SEAL Team Alpha Series Book Sixteen Ford "Fast Lane" Nixon the LT of this SEALs team is way past angry: Zasha a cruel and evil woman has been out to kill him and his team for some time now, And so far she's done more damage to them than they have to her: They killed her lover Darko but they still have to kill her...and soon, Warrant Officer Solace Mitchell is a Nightstalker pilot and she's had Ford on her mind since her last mission when they ran into each other on a mission, What a time for these two to realize what they mean to each other, Things have heated up...and not just between them...and the bullets are flying. I really enjoyed this book and am looking forward to reading the next installment. Fast Lane finds himself on a mission with his team on which his ex- wife Solace a SOARS Pilot has also been sent. As they try to work out their true feelings for each other the mission to find and stop Zasha Vasiliev goes ahead with some shocking results, Although Fast Lane and Solace are the main characters in this story the team characters from the previous books are all involved too: The book grabs you from the start is non stop full of action has some steamy scenes and some totally unexpected but great twists towards the end. {site_link} Wow. A 5+! This is one of Zoe's best books.
