

An Unexpected Obsession By Heidi Hall I will certainly keep an eye out for more releases by this author! English This book was fantastic!! I had my doubts and I will tell you them so if you have some of the same concerns you know they are unfounded. **PDF An Unexpected obsession definition** Successful author college professor what does it matter if she doesn't get out much? Passion really is overrated isn't it? Everything in her life is running smoothly until Cameron walks into her classroom. **An Unexpected Obsession kindle app** So why does his life feel like just another role he's playing? Can a chance encounter with a shy bookworm awaken his sleeping heart? Can Cameron break down the carefully constructed walls Ava has built? Can Ava survive Cameron's overwhelming fame and having her life exposed in the tabloids? Will he find the life he never realized was all he really wanted? Will she discover a dream she has been too afraid to wish for? Sex love betrayal: It all begins with an unexpected obsession. **An Unexpected Obsession book** Bonus Material Included in this Kindle Edition: Excerpt from: Fixing Cupid by Cristian YoungMiller Excerpt from: Cupid's Dating Disasters by Lacy Maran & Kevin Michael An Unexpected Obsession I had every intention after finishing My Double Life to go onto The Hunger Games but n Unexpected Obsession was recommended to me on GoodReads and I was drawn in. **An Unexpected Obsession ebook3000** At the end of the book I realized that everything with Cameron's brother could have been easily fixed with a conversation explaining what his brother was doing what he did but this would have taken much away from the book. **Kindle An Unexpected obsession cast** unknown normal gal meets insanely hot and famous author and they fall in love great right? But here's the kicker the author made it even more interesting by making the heroine 35 to the hero's 25! Plus the heroine is accomplished and wealthy in her own right. **An Unexpected Obsession ebook3000** but sadly these obstacles changed the ENTIRE FEEL and reality or should I say suspension of reality that the book went so downhill that by the end it was completely tanked and the characters unredeemable in my opinion. **Book An Unexpected obsession book** He does everything in his power to make his brother miserable and to drive Cameron and Ava apart in fact succeeds several times and yet Cameron KEEPS HIM ON as his manager saying it would be too much trouble to replace him. **An Unexpected Obsession pdf drive** and gives stupid excuses!!! The author had set him up to be this amazing superhuman hero who would DIE for her he loves her so much but then basically tears that entire character personality apart with the actions in the second part of the book. **EPub An Unexpected obsession cast** Also the studio has Cameron locked into contract to date his co-star and again instead of telling them to go and shove their contract where the sun don't shine he uses it as a reason to a) break up with Ava b) drive her away c) be away from her when she MOST needs him ahem being in the family way anyone? Maybe in real life a movie star wouldn't throw away all that money and possibly be sued etc. **Book An Unexpected obsession netflix** but this is a ROMANCE where the hero has been set up as the end all be all I LOVE YOU TO DEATH FOREVER guy in this reality he should not be a puppet to anyone! I was mystified I kept wondering where that shy adorable endearing handsome Hollywood hunk went the one who kept saying over and over that he couldn't live without her. **An Unexpected Obsession pdf editor** but after that moment she became a total pushover! The moment she admitted her undying love to Cameron it became hey lets not make waves in Cameron's life and oh you can have a fake torrid romance with your costar while I pine away for you over here and worst of all sure people and strangers and the press heck my own friends are calling me horrible names think I'm a home wrecker that I'm sleeping around that I'm a cougar and a gold digger and say as much when they pass me but that's fine because I know that after 8 months more you will come home to me. **An Unexpected Obsession epub file** Seriously?!?! What self respecting woman would accept that load of crap?? And what man worth a dang would make her accept it?! Yes I was really upset that a book that showed so much promise ended up being such a pile of rubbish. **Book An Unexpected obsession cast** There were some things however that didn't add up to me: 1) When she left him after walking in on him and his costar he couldn't handle it triggered her alarm almost got arrested told her he couldn't live without her literally had a meltdown etc. **An Unexpected Obsession kindle books** 2) But when it came down to the studio possibly suing him for breach of contract because he was with Ava he was able to

break up and leave her without a problem at all. **An Unexpected Obsession booking** When it came down to that fact that he would possibly never make another movie after being sued and would have to pay back large sums of money to the studio then it was okay to walk out on Ava. **An Unexpected Obsession epub** With Cameron knowing all that he did to him and Ava drugging him on purpose breaking into Ava's apartment in London stealing her journal with all that private information about her and Cameron's relationship independent and smart, **EBook An Unexpected obsession perfume** At first I was worried to read it because I have not heard of this author before. **An Unexpected Obsession epub reader** But let me tell you I will be buying her next book the DAY it comes out, **PDF An Unexpected obsession perfume** Another concern of mine was how good it was going to be, **Book An Unexpected obsession netflix** I saw that it was only \$3 on kindle and thought that it was either going to be really short or suck: **An Unexpected Obsession pdf reader** It has a involved best friend of the heroine and they were hilarious together: **EPub An Unexpected obsession nandina** It was kind of a love at first sight thing and even if you don't personally believe in that.

I highly recommend An Unexpected Obsession. I was pleasantly surprised to find that it was neither. I was long and fabulous. The book had everything I love. The guy (Cameron) was hot and so sweet. Him and Ava were a great couple. Their chemistry literally leaped off the pages. He should have had him arrested instead. That was dense. Overall it does deserve 4 stars. Good read. I liked this book. Loved Ava. *This book contains some erotic subject matter. Which his actions did make for some page turning suspense. Overall I really enjoyed An Unexpected Obsession. I suggest that everyone give it a chance. But apart from that it was a cute story. Over-all it was a fun-read. English I REALLY wanted to like it. Another big hello for a smart lady you sure are stupid. he continually drives her away OR breaks up with her. And Ava. aweeeeeee how sweet I almost puked a little in my mouth. I enjoy the movie star meets small town girl books. Cameron Sloane was edible. And he did it on a PLANE. So very wrong. Maybe I missed that but I don't think I did. 4) Cameron hired his slimy brother Geoff back as his manager. Now that REALLY threw me. Duh. I woke up at two in the morning Monday. decided to read. I gobbled this up in four hours. I already know that I love it;) English 3.75 Stars If you're a fan of inst-love this is for you. I found it rather enjoyable. Full review to
